

2024 CCBF Reporting: Asset Management Questionnaire

Asset management is a strategic approach to proactively manage and efficiently invest in municipal infrastructure. This questionnaire will help inform our reporting to Canada on progress made in the development and implementation of asset management and will guide future asset management capacity-building initiatives. Please view the [help text](#) before responding.

1. Does the [map](#) link to your municipality's most recent asset management plan (AMP)? [Yes/No]
 - a. If no, please provide the link
2. What year was your AMP last updated? [year]
3. What phase of the O.Reg. 588/17 is your AMP compliant with? [multiple choice]
 - a. 2022
 - b. 2024
 - c. 2025
 - d. It is not compliant with any phases defined in the regulation
4. When will you finalize the 2025 compliant AMP in accordance with O.Reg. 588/17? [multiple choice]
 - a. It is already complete
 - b. By July 1, 2025
 - c. By December 31, 2025
 - d. In 2026 or later
5. Do you have a dedicated asset management professional? [multiple choice]
 - a. One staff member dedicated full-time to asset management
 - b. Shared staff resource(s) with another municipality or municipalities
 - c. A team dedicated full-time to asset management
 - d. It is the responsibility of another staff member (e.g. the treasurer, clerk, cao, etc.)
 - e. No one has been identified as the lead on asset management
6. How confident are you in your asset data? Please provide comments that you wish to share. [multiple choice]
 - a. Very High Confidence
 - b. High Confidence
 - c. Moderate Confidence
 - d. Low Confidence
 - e. Very Low Confidence

f. No Confidence

7. How is your AMP used for capital planning? How is it used to select CCBF funded projects (e.g. asset condition, risk, projected growth, current/proposed levels of service, etc.)? [open text]
